GO_Biological_Process_2021
regulation of steroid biosynthetic process (GO:0050810)
regulation of multicellular organism growth (GO:0040014)
negative regulation of inflammatory response to antigenic stimulus (GO:0002862)
regulation of inflammatory response to antigenic stimulus (GO:0002861)
calcium-independent cell-cell adhesion via plasma membrane cell-adhesion molecules (GO:0016338)
sensory perception of light stimulus (GO:0050953)
negative regulation of inflammatory response (GO:0050728)
hair cell differentiation (GO:0035315)
positive regulation of steroid biosynthetic process (GO:0010893)
cell migration involved in heart development (GO:0060973)
