GO_Biological_Process_2021
defense response to bacterium (GO:0042742)
regulation of autophagy (GO:0010506)
translational termination (GO:0006415)
protein transport (GO:0015031)
translation (GO:0006412)
organonitrogen compound biosynthetic process (GO:1901566)
regulation of inflammatory response (GO:0050727)
regulation of ERK1 and ERK2 cascade (GO:0070372)
regulation of tumor necrosis factor production (GO:0032680)
negative regulation of protein phosphorylation (GO:0001933)
