

GO_Biological_Process_2021

calcium-independent cell-cell adhesion via plasma membrane cell-adhesion molecules (GO:0016338)

regulation of steroid biosynthetic process (GO:0050810)

regulation of multicellular organism growth (GO:0040014)

regulation of developmental growth (GO:0048638)

progesterone metabolic process (GO:0042448)

hair cell differentiation (GO:0035315)

cell migration involved in heart development (GO:0060973)

bicellular tight junction assembly (GO:0070830)

ketone biosynthetic process (GO:0042181)

positive regulation of steroid biosynthetic process (GO:0010893)
