

## Gene ontology in chocolate module with 59 genes

cytoplasmic sequestering of transcription factor (GO:0042994)  
cytoplasmic sequestering of protein (GO:0051220)  
protein kinase C signaling (GO:0070528)  
dorsal/ventral axis specification (GO:0009950)  
dorsal/ventral pattern formation (GO:0009953)  
negative regulation of DNA binding (GO:0043392)  
regulation of DNA binding (GO:0051101)  
renal system development (GO:0072001)  
kidney development (GO:0001822)  
negative regulation of binding (GO:0051100)
