Gene ontology in silv module with 752 genes
ephrin receptor signaling pathway (GO:0048013)

Hits

positive regulation of positive chemotaxis (GO:0050927)
induction of positive chemotaxis (GO:0050930)
positive regulation of keratinocyte proliferation (GO:0010838)
response to calcium ion (GO:0051592)
