Gene ontology in dimgray module with 6746 genes L-amino acid transport (GO:0015807) Hits vascular transport (GO:0010232) 49

22 endomembrane system organization (GO:0010256) 6 transport across blood-brain barrier (GO:0150104) anion transmembrane transport (GO:0098656) Combined serine transport (GO:0032329) macroautophagy (GO:0016236)

neutral amino acid transport (GO:0015804) regulation of cell cycle process (GO:0010564) 1.2 1.4 1.6 1.8 2.0

Score 400 alpha-linolenic acid metabolic process (GO:0036109) - 200 -log₁₀(Adjusted P-value)
